EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert Sloan on September 29, 2004.

The application has been amended as follows:

Claim 1, line 2, "of the type" has been deleted.

Claims 2-9, line 1, "A" has been changed to --The--, and "Claim" has been changed to --claim--.

Claim 4, line 3, "the two" has been changed to --two--.

Claim 4, line 4, "the motion" has been changed to --motion--.

Claim 6, line 3, "which" has been changed to --and the--.

Claim 6, line 4, "the corresponding" has been changed to --a--.

Claim 6, line 5, "bushing" has been changed to --spacer--.

Claim 9, line 2, "the" has been deleted.

Claim 9, line 3, "rail of the window regulator" has been changed to --guide rail--.

Art Unit: 3634

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of a lateral appendage of the body having a sliding channel adapted to receive the guide rail, and the screw shank having a spacer contained in the through-hole of the plate portion and projecting on the face of the plate portion turned towards the movable jaw the abut with the jaw. See claim 1, lines 6-24. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
